## GAP Insurance \$aved Members Thousand\$ Last Year

GAP is an insurance policy you may select with your financing on your next car loan for a nominal cost. GAP Insurance protects you from losses that can happen when your insurance company declares a total loss on your vehicle, but it does not fully cover the loan balance owed on the vehicle. This happens when the balance owed is greater than the NADA value. Last year GAP Insurance saved many members thousands of dollars.

How does GAP Insurance work?

As an example of GAP insurance, consider John's car is currently worth \$15,000; however, John still owes \$20,000 on the loan. If John's car is completely written off because of an accident, theft or hail for example, John's auto insurance policy will reimburse him \$15,000. Because John owes Weld Schools Credit Union \$20,000; he would still be \$5,000 short even though he no longer has his car.

If John purchased GAP insurance with his loan from the Credit Union, the policy would cover the \$5,000 "gap", or the difference between the money received from reimbursement, and the amount still owed on the car.

How to purchase GAP Insurance

GAP Insurance policies may be needed in a variety of situations, but not all. Check with our knowledgeable and friendly loan officers. You may also buy these policies through wherever you are financing the vehicle, at the dealership. Our GAP policies are currently \$399, and so not only can Weld Schools Credit Union save you money on your interest rate, our GAP Insurance is often less expensive as well. We encourage you to be a smart shopper!
